RAWABI NGNS

Defining the Future of Global Communication!

Rawabi Next Generation Network Solutions (Rawabi NGNS), a fully owned subsidiary of Rawabi Holding, is a licensed Telecom operator in the Kingdom of Bahrain providing integrated voice and data services utilizing the Next-Gen Technology and Infrastructure.

Rawabi NGNS brings the latest innovations in the Telecommunication and IT industry to its customers. Creative IT solutions, together with state-of-the-art Data Center facilities, give us the power to provide innovative packages tailored to customers' requirements to enhance their business performance. Corporate clients rely on our knowledge and creativity to design, develop and implement fully integrated solutions that align perfectly with their business objectives.

Rawabi NGNS Satellite services and solutions reach our clients whether on land, at sea or in flight. With our customized satellite communication solutions, we are able to craft services that boost workers' mobility, productivity and security in the most remote areas.

Rawabi NGNS caters to various industries including Oil and Gas, Mining, Defense, Government, Yachting, Merchant/Fishing. We provide superior quality services through a solid network of business relationships with industry leaders like Vizada, Thuraya, MarLink, Inmarsat, and Iridium, to name a few.

Data Center

Rawabi NGNS state-of-the-art data center is located in the Kingdom Of Bahrain at Al-Seef District. This is full Tier-3 facility with best-of-breed chosen infrastructure. We offer various Data Center services to our customers: (Co-Location, Hosting, Disaster Recovery, Remote Data Backup and Storage Space, Computer Power (Virtualization), Managed Services, CLASS 5 voice platform with partitioning facility)

- Technical personnel present onsite – 24/7 NOC
- Redundant NOC center outside of DC location

Network Operation Center (NOC)

NGNS NOC is operating around the clock 24/7/365. We chose our team members not only for their technical ability, intelligence, and problem solving skills but also their inclination to helping other people. By carefully selecting the best and brightest young minds, we are able to offer the highest quality support service.
