JACK-UP RIGS PRODUCTS
OILFIELD EQUIPMENTS

ROWAN COMPANIES, INC.

Houston-headquartered Rowan Companies, Inc. is a major provider of international and domestic contract drilling services. With a special focus on high-specification, premium jack-up rigs and a manufacturing division that is unique within the industry, the company offers customers innovative drilling products and systems including those that serve the niche market — hard-to-drill deep gas wells.

Rowan Companies own and operate offshore drilling rigs and land drilling rigs world-wide. Currently Rowan owns and operates 9 high specification jack-up units in the Arabian Gulf Region. Along with its partnership with Rawabi Holding in Saudi Arabia, Rowan maintains offices in Qatar and the United Arab Emirates to manage its regional business.

In terms of Manufacturing, in 1994 Rowan acquired Marathon-LeTourneau Company, gaining an in-house manufacturing capability that is unique within the Oil & Gas Industry. LeTourneau Technologies, Inc. (LTI), which has designed and built all of Rowans' jack-up rigs, positioned the company to stay at the forefront of jack-up technology. It also affords unparalleled support for Rowans' drilling operations through timely construction and repair of rigs and equipment.
